

# Cheap Automated Web Traffic

## How to Use Our Automated Website Traffic

Our automated website traffic service instantly drives thousands of web visits to your website or blog. With our cheap and premium automated web traffic service, you can improve your website traffic metrics such as bounce rate, return rate, session time and increase your traffic volume.

Our unique service enables you to drive millions of visits, from hundreds of countries globally and from any devices such as desktop, mobile and tablets that you can see in Google Analytics and other popular visitor tracking systems.

Our traffic network generates millions of unique visits and page impressions monthly that you can purchase at a low cost.

### Setup your account

- Create account
- Choose a plan

### Provide website Data

- URL
- Referers, Internal URLs, page wait duration

### Traffic Delivered

- Sit back and relax
- Watch traffic flow

## **What is required to use the service?**

The following information is required:

Your website or blog URL

Your desired referrers if needed

Your desired minimum and maximum page wait times

Your internal pages URLs

Note: We shall provide you a Google Analytics tracking code to place on your site prior to delivering the traffic. This will allow us track the traffic from our side.
